### IDOL PLATE #1

\$220

#### DESCRIPTION

Blending tradition with modern design taste, this decorative ceramic plate will transform any simple decor with its dynamic appeal. The small plate, an original piece made by the Richard company in San Cristoforo dating back to the 1900s, has a softly undulating edge with fine golden lines on the inner and outer rims, framing the bold central motif of a greyscale creature with a colorful headdress. The image is a drawing from an old print by the designer. Displayed as is or with decorative plates from the same series on a wall, this piece will be the visual focal point of any interior.
