IKAT TRAY #1

\$130

DESCRIPTION

Inspired by the Ikat textiles, the central motif of this superb handcrafted ceramic tray stands out on the glossy white surface. The apparent "blurriness", typical of this textile dyeing technique, creates a soft appearance where gray, purple, red and white mix in a striking visual effect. This tray would add an elegant accent to any table and it is perfect for serving appetizers, corralling accessories or to be displayed as decorative object when not in use.
