IL MESSAGGIO SCULPTURE IN ALDER

\$530

DESCRIPTION

Part of Il Messaggio collection, this sculpture is shaped as a bottle and evokes the familiar silhouette of this everyday object without serving its use. Crafted entirely of alder and made on a lathe with a brushed finish, this piece is highlighted with the striking grain of the wood that almost resemble the shapes of pulsating veins. This one-of-a-kind decorative piece can be displayed alone or combined with others in the same series for a dynamic effect.
