Mingardo

ILARIO MIRROR BY FEDERICA BIASI

\$1,845

DESCRIPTION

This elegant piece of functional decor was designed by Federica Biasi to honor Davide's father and founder of Mingardo workshop, Ilario and his collaborations with architect Carlo Scarpa. The round shape of the frame is inspired by the historical circular windows of the workshop. Entirely made in brass, this piece reflects the heritage of the company and is also an example of ancient artisanal virtuosity.
