ILLUSIONI RECTANGULAR COFFEE TABLE BY SEBASTIAN TOSI

\$1,890

DESCRIPTION

Exuding sleek, modern allure, this superb table by designer Sebastian Tosi will add a bold presence into any modern decor. The striking silhouette is characterized by a dynamic interplay of shapes framed in a burnished metal structure with a glass top and two smaller, decorative cubes that float along the surface of the table. Inspired by Escher's concept of "the impossible cube", this masterfully designed piece deceives the eye into seeing two cubes partially inside a larger rectangle, making it a statement piece that will enrich a modern and industrial-inspired living room.
