## DESCRIPTION

This unique plate will shine both as a decorative accent on a wall or as a serving dish alongside numbered pieces of the IPiatti Collection. Featuring an irregular shape that celebrates the Japanese Wabi-Sabi philosophy of beauty as impermanent and incomplete, this plate is handcrafted of "terraglia bianca", and decorated with a Japanese rice paper decal of a thick bush of flowers emerging from the white background and detailed with black enamel and pure gold. Entirely food safe due to the lead-free glazes employed by the artisan.
