IMMAGINA SIDEBOARD

\$9,580

DESCRIPTION

This stunning sideboard combines timeless minimalism with the use of a new material, xensum, durable and waterproof that maintains its color intact even when exposed to direct sunlight. Ideal for a living room, dining room, or patio, this piece has a front sliding door, two drawers, and two open compartments. The solid sand color of the base and front harmoniously coexists with the striking damask texture of the top and sides in a delicate lavender hue, which lends a soft edge to this contemporary design.
