INDIA POMEGRANATE SEEDS VASE

\$285

DESCRIPTION

A unique and splendid object of decor, this vase is named after the designer's memory of a trip to India, a country brimming with a vibrant technology and start-up sectors. Made of 70% pomegranate seeds waste and 30% of PLA, the polycyclic acid derived from renewable resources like maize and compostable in industrial facilities, using the newest 3D printing techniques. This piece is not water-resistant and may be used only for dried flowers.
