LIGHTING : TABLE LAMPS

Serena Luxury Mosaic

INFINITO BLU TABLE LAMP

\$10,100

DESCRIPTION

An exquisite piece of functional decor, this lamp is part of the Light Collection that combines the most precious techniques and materials of the artistic glass world. The large, electric blue globe at the base is filigree, a Murano mouth-blown glass made with a method developed in the 17th century by an ancestor of Michelangelo Serena, and is surmounted by a smaller one made of mouth-blown glass with a 24 kt gold foil in a mosaic pattern. The lamp features a 24 kt gold-plated stainless steel round base that enhances its perfectly balanced shape and an ivory shade that seems to float above this striking lamp.
