INK CONSOLE

\$4,805

DESCRIPTION

Inspired by ink, as a material that immortalizes human meditation and creates indelible signatures, this sophisticated console will add a touch of elegance to any decor, particularly classic. The structure is made of wood treated with black ink. Below the top, three drawers are accented with jeweled handles that add a splash of color to the piece and contrast its minimalist, rigorous look. The front feet are adorned with original brass tips.
