\$24,890

## DESCRIPTION

Abstract and mesmerizing, the design of this striking rug was created by Studio Job in 2017, inspired by the frantic dynamism of a group of crawling insects. This piece is part of a limited edition series of five pieces featuring 200 knots per inch and a pile of 5 mm height for a detailed and timeless design. The unconventional circular silhouette and imposing size, along with the contrasting color combination and exquisite craftsmanship, make this piece a superb addition to a contemporary interior.
