### INSEPARABILI CAKE STAND

\$290

#### DESCRIPTION

This exquisite piece of functional decor will add a touch of precious charm to any special occasion and can be used as a cake or pastry stand or centerpiece. It is entirely made in Capodimonte porcelain, that gets its name from the hillside area by Naples where it was first made in the middle of the 18th century. Since then, expert artisans' hands have crafted delicate objects such as this one, adorned at one side by two charming statuettes of vivid green parrots with their red beaks joint together.
