INSIEME SET OF BLOCK AND BREAD KNIFE WITH CONROTECH HANDLE

\$260

DESCRIPTION

This excellent set of wooden block and knife is a useful and striking addition to any kitchen. The block, with its magnets, can be placed next to others from the same Insieme series to build a personalized collection of blades while the knife is a handmade piece, the result of an age-old artisanal tradition. Its forged, serrated stainless steel blade bears the initials of the artisan who made the piece, and the handle in lucite has a ox horn-like finish (cornotech).
