## IPAZ COFFEE TABLE BY ACHILLE CASTIGLIONI

\$5,420

### DESCRIPTION

The structure of this exclusive coffee table designed by Achille Castiglioni for UpGroup is both light and robust, as it plays on the idea of balance and tension, giving the design a dynamic quality. The striking black Marquinia oval top rests on a base composed of two identical truncated cones made of black Marquinia marble from which stems a stainless steel rod, creating a silhouette that is at once industrial-inspired and sophisticated. A standout piece that will enliven a monochromatic living room with lasting style.
