\$2,945

### DESCRIPTION

Wall bookcase with an innovative design, with rounded and soft shapes, conceived as an idea to decorate and enrich a wall in an original way. The original design makes it versatile, it is an alternative proposal to a picture or a mirror but with the functionality of an object holder. It is made with an elliptical-shaped back panel, emptied and worked to create a “floating” effect, and 3 interlocking shelves with an asymmetrical shape.
