LIGHTING : PENDANTS

Antonio Ciulli e Figlio

IRACLIA PENDANT LANTERN

\$11,530

DESCRIPTION

This elegant nine-light lantern was made in bronze with a French gold finish. Its cylindrical shape is enriched throughout by small decorations and the six sections of the cylinder are covered by transparent glass. Six sinuous arms support the structure and attach it to the chain above. The two tiers of lights inside stem from the same central rod. The warm gold finish and the classic style of this piece make this a sophisticated addition to a classic decor.
