IRON FLOWERS CHANDELIER

\$20,000

DESCRIPTION

A striking balance of bold and ethereal, this exquisite chandelier will infuse any decor with timeless elegance. Reminiscent of a flower bush in a French garden, the sturdy frame is marked by a delicate two-toned, green and orange fabric covering the ceiling chain and shade base. A stunning array of fabric-covered leaves and iron-wrought flowers with hand-applied, white sequin petals adorn the shade base, while strings of clear glass and purple drop-pendants elegantly drape underneath. This dynamic yet whimsical chandelier is part of a collection presented at Milan Design Week 2018.
