## DESCRIPTION

Marked by a strong personality, this exceptional armchair will become the protagonist of any traditional or minimalist living room decor. Boasting a clear geometry, the enveloping silhouette is defined by a rounded, demi-lune back with swooping arms connected to a square seat. The deep black upholstery is complemented by the smoky grey glossy lacquered finish of the four saber-shaped legs. This piece is best arranged in a pair around a table or as an accent piece alongside a sofa or side table from the same collection.
