JASPER TABLE LAMP

\$1,400

---

## DESCRIPTION

This striking table lamp features a metal structure resting on a gold finished square base that supports a white fabric shade. The standout element of the piece is a sculpture used as decorative accent and made entirely of ceramic with a gold finish identical to the one of the metal. The complex texture of the decoration mixes three-dimensional geometric parts as if they were emerging from an asymmetric sphere. A unique addition to a contemporary decor, this piece will make a statement in any room.
