JEWELRY HOLDER IN BURNISHED COPPER LEAF

\$290

DESCRIPTION

An extensive multi-step process was used to craft this exquisite piece which can be used to store jewelry and other small objects. First, a polyurethane base is constructed in the desired shape, in this case a star shape graduating from top to bottom. The next step is a stucco application which gives the piece an interesting texture. The object is then gilded in pure copper leaf with a burnished finish and finally given a final epoxy resin coating. This piece will make a striking addition in a bedroom or walk in closet.

DETAILS & DIMENSIONS

- Material: Polyurethane, Copper leaf
- Dimensions (in): W 18.11 x D 14.17 x H 7.09
- Dimensions (cm): W 46 x D 36 x H 18
- Handmade In Italy
