JUNGLE RECTANGULAR DINING TABLE

\$10,940

DESCRIPTION

Entirely designed, laser-cut, and assembled by hand, this table embodies the harmony between the traditional art of marquetry and the thorough glass overlaying technique. Boasting a unique design, it comprises two 8mm-thick layers of tempered glass with polished edges enclosing a 0.5mm-thick inlay woodwork in dyed toulipier wood. The distinctive slanted legs, made of the same wood, bend out from the center of the table where they connect, forming an elegant and balanced arch. The decoration and size of the table may be customized at will.
