KAZIMIR SCREEN TYPE C GEOMETRIC PATTERN

\$4,190

DESCRIPTION

Designed by Julia Dozsa, this screen with a modern twist merges the figurative art form with functionality. Drawing inspiration from the geometric paintings of Russian abstract artist Kazimir Malevich, the asymmetric screen panels are composed of a rounded wooden frame covered with a jersey fabric, half in a dark black and the other half with a red and white geometric pattern on a blue background connected by a series of two magnets covered by brass rings. Supported by a corten steel base with a natural wax coating to create a rust-like finish for a striking finishing touch. This piece is a prototype handcrafted and signed by the designer and is immediately available for order.

DETAILS & DIMENSIONS

- Material: Metal, Textiles, Brass, Wood, Steel
- Dimensions (in): W 44.49 x D 13.78 x H 62.20
- Dimensions (cm): W 113 x D 35 x H 158
- Handmade In Italy
