La Cividina

KEISHO BROWN SIDE TABLE

\$1,225

DESCRIPTION

Minimalist and organic, the shape of this stunning side table is inspired by the Japanese stones that become sculptures when carved and molded by wind. Particularly designed to complement the Suiseki modular armchairs and sofas, this is a perfect pair to all La Cividina seatings. Its lightness makes it easy to move and ideal for both private and contract spaces. Its off-centered column is in ash, connecting the base and top in varnished steel.
