KENYA 5 DESSERT PLATE

\$75

DESCRIPTION

Part of the Kenya collection, this dessert plate was crafted of porcelain and features a vintage black and white scene in which a warrior dance is being performed in the middle of a village under the eyes of the community. Dynamism and sophistication dominate the image, which is strikingly adorned by a contrasting geometric pattern of triangles that partially cover the background. Either with identical ones or combined with the other five designs of the series, this piece will enliven any occasion.
