KENYA 6 DINNER PLATE

\$110

DESCRIPTION

The stunning decoration that adorns this porcelain dinner plate is part of the Kenya collection, designed as a homage to the vibrant culture of this African country as depicted in six different scenes. In this case, as if posing for a portrait, four boys and a girl look in front of them, interrupting an ongoing celebration and staring intently at the viewer. This black and white decoration is enlivened by a contrasting pattern of triangles in delicate cream hues and gold accents. The effect is mesmerizing and refined.
