KENYA 6 DINNER PLATE

\$110

DESCRIPTION

This exquisite porcelain plate is part of the Kenya collection, celebrating everyday life in this African country, as seen in six different vintage activities depicted in black and white. This image reproduces a moment of leisure, with a man playing an instrument, and other villagers with children gathering around. The surrounding nature is barely visible through an added pattern of pale pink and gold triangles that adorns the piece adding a unique and modern accent.
