KIKI MODULAR CHEST OF DRAWERS BY ELENA CUTOLO

\$7,710

DESCRIPTION

Eclectic and innovative, this modular chest of drawers from Elena Cutolo's collection "A Moveable Feast, Paris in the Twenties" is a tribute to Kiki de Montparnasse, French singer, actress and Man Ray's muse. A striking object of functional decor, this aluminum piece is composed of six prisms arranged in alternating black and white colors and supported by black legs (available in two heights). A stunning focal point in any interior, the drawers have interlocking shapes that can be composed into a larger armoire with a sinuous and captivating silhouette of great visual effect.
