Luigi Pulvirenti

KNOSSO PLATINUM VASE

\$795

DESCRIPTION

Part of the Knosso series, this vase in ceramic was painted with platinum enamel outside, paired with the complementing glossy white finish of the inside. Two curved handles at the top give a delicate accent to its elongated silhouette, making it a striking addition to a modern decor. The inside of the vase was treated to be waterproof, so that the piece is suitable to contain water and fresh flowers. Either alone, or paired with the other vases from the same series, this object will make a statement in any room.
