## KUBRIK CORTEN SET OF 3 COFFEE TABLES

\$1,980

### DESCRIPTION

This industrial-inspired set of three low coffee tables embody Francesca Levi's concept of "functional design". The elegant simplicity of their design is equal to their functionality and versatility: entirely crafted of squared iron, the open base supports a Corten steel top in its distinctive rich orange-red tones. Perfect to reduce clutter by increasing space efficiency, they can be used as whole or separate tables in a contemporary home or office. Customization is available with wood-veneered aluminum top in blue, red, green and walnut brown.
