LA CITTÀ IDEALE CONSOLE

\$32,400

DESCRIPTION

Inspired by the paintings on "la città ideale" (the ideal city) painted throughout the Italian Renaissance, this superbly rendered console by Mauro Varotti is a work of art that will take center stage in a sophisticated living room. Sourced from rosewood, ash, beechwood, and walnut, among others, the woods come together to create a series of different colors that recreate the silhouettes of buildings and mesmerizing trompe l'oeil throughout the bent surface of the honeycomb wood structure.
