LA FLEUR PRISMA TABLE LAMP BY MARC SADLER

\$520

DESCRIPTION

This battery-operated design by Marc Sadler combines functionality and adaptability with a highly decorative aesthetic. The three-dimensional diffuser is hand-molded in the shape of a delicate blossoming flower using a heated sheet of Lentiflex® that captures and diffuses warm, energy-efficient illumination throughout its sensual silhouette and individual pistils. Equipped with a magnetic base, this lamp has a metal anchor designed to be placed under a tablecloth for an eye-catching mise-en-place or affixed to a wall to transform this artistic luminaire into a sconce.
