LABIRINTO SCARLATTO CANDLE WITH LID BY GIO PONTI

\$230

DESCRIPTION

Evoking the maze-like patterns of a minimalist and sophisticated labyrinth, the decoration of this candle container with lid is part of the aptly named Labirinto Collection, based on a 1926 design by creative genius Gio Ponti. Hiding within its porcelain body a 10-ounce candle, this container will be a superb decorative object in both a classic and contemporary home. Its white background is adorned with a series of symmetrical patterns, complemented by gold details. For a striking effect, it is possible to combine this with other candles in the same series.
