LABRADORITE COFFEE TABLE

\$5,435

DESCRIPTION

This spectacular coffee table combines natural materials, hand-cut in their original form, and man-made components creating a piece that is the perfect balance of the two. The top of this table is a striking rectangular piece of labradorite from Madagascar, featuring countless inclusions, and it is supported by an interesting nickel-plated brass base, entirely crafted by hand. Labradorite is considered a strong and protective stone that is also breathtaking to behold. The size of the base can be made bigger or smaller in order to accommodate the individual needs of each customer.
