La Fornasotta

SET OF 6 PIERA BLUE MURANO GLASSES

\$740

DESCRIPTION

Set of 6 blue glasses made with the "Piera" technique, which entails the melting of murrine (the small single elements) into a clear glass base. These glasses are in limited supply because they are made with antique murrine. Made entirely by hand by the master glass blowers of La Fornasotta in Murano, each glass might exhibit slight variations, hallmarks of the artisanal workmanship.
