### LAGUNA SET OF 6 RED GLASSES

\$420

#### DESCRIPTION

This set of six versatile glasses is a stunning bouquet of colors that will enliven a modern home on any occasion. Each piece is fashioned of mouth-blown glass decorated by hand with large red spots and traditional Murano "murrine" with the addition of silver leaf, enhancing the one-of-a-kind textural effect of the decorative elements on the surface. The layered colors are enclosed inside clear glass, according to the traditional "sommerso" technique. Due to the artisanal quality of the work, each glass (8 x 8 x H 13 cm) is unrepeatable and might show variations in color combinations and size.
