LAGUNA SET OF 6 WHITE GLASSES #1

\$420

DESCRIPTION

Part of the Laguna Collection, this set of six mouth-blown, hand-decorated glasses boasts a versatile shape and a delicate design that mixes traditional decorative elements, such as "murrine" and spots of color over the white background. The addition of silver enhances the textured surface of each piece, crafted using the "sommerso" method which prevents the oxidation of the silver due enclosed in a layer of transparent glass. Each glass (8 x 8 x H 13 cm) is a one-of-a-kind that will show variations in color patterns and size, due to the handcrafted production.
