LAMPADA 18 TABLE LAMP

\$9,290

## DESCRIPTION

Each lamp by Hagit-Pincovici embodies a multiplicity of forms and textures resulting in an entirely modern work of functional decor. This sculptural lamp features a hand-blown Murano glass orb embedded in a square frame, half as an open brass frame and the other half crafted out of a block of black Carrara marble. The focal point of the piece is a mirrored brass panel that is angled next to the orb, creating additional reflections of light. This will be a striking addition to a minimalist living room, lounge or foyer.
