## LANDSCAPE SCONCE

\$4,255

### DESCRIPTION

This elegant and colorful sconce is part of the Landscape collection, introduced at Milan Design Week in 2018. Its striking shade is a rectangular panel mounted in brass with bas-relief decorations in enameled ceramic with a crackled finish that create an abstract pattern, reminiscent of a stylized reproduction of a river running through a field. A strip of LED light illuminate the piece, which will enrich any wall in a contemporary home, adding a unique decoration to it.
