DESCRIPTION

The geometric lines of this superb ceramic centerpiece are enhanced by the two-tone finish that will infuse a refined allure to any modern interior. Evoking the classic urn shape, this piece was turned by hand on a lathe using white refractory clay and features a large cylindrical base with a wide body finished in matte acid green paired with a dove-gray inside that is visible from the large opening. Available in a limited series of 199 pieces, this centerpiece of the Tribe Collection was designed in 2007 by Arik Levy George.
