## *Sbigoli Terrecotte Firenze*

### LARGE SQUARE CENTERPIECE

\$475

#### DESCRIPTION

This large squared ceramic centerpiece will elegantly complement a dinner table and can also be placed on a wall for decoration. The original design on this piece was painted by hand by Lorenza Adami for Sbigoli Terrecotte. The plate was made using traditional Florentine techniques and the painting is representative of four fantastical birds flying over a green background sprinkled with orange and yellow flowers. The color, designs and size of the plate can slightly change because of the piece's handmade nature.
