LAS PALMAS BOWL N. 2

\$80

DESCRIPTION

Part of Las Palmas Collection, this elegant porcelain bowl was introduced at Maison&Object 2019 in Paris, as part of a series of different designs that highlight the curves of white porcelain. A superb addition to both a classic and modern home, this versatile bowl can be used as a display container, vide poche, or cup for hot beverages. It boasts delicate branches of exotic plants delicately moving under a soft breeze and is adorned with a gold rim at the top. It is possible to combine it with the other designs for a dynamic look.
