LAS PALMAS YELLOW PLATE #2

\$80

DESCRIPTION

The dreamy atmosphere of the Brazilian Amazon forest inspired artist Vito Nesta to create the Las Palmas series of porcelain plates that features rich forest landscapes on a white background. The yellow-gold color of the design and the contrasting rim in glossy green add an alluring and elegant touch to this plate that portrays emergent layers of trees poking up above the rainforest canopy. Arranged with the others from the same series, this plate will present food with style and grace.
