## LAUREL BIG TOURIST HANDLE CANE

\$1,060

### DESCRIPTION

The standout component of this tourist handled cane is the handgrip in sterling silver (around 200 gr. in weight), graced by a stunning laurel decoration and made through the antique lost-wax casting method. This cane's stability is ensured by a tip in bovine horn, which is hand-attached to the black-lacquered, conical beechwood shaft with a polished finish. A nice gift package comes with this exclusive walking stick that is also available in brown lacquer.
