LE BABE PRIMULA VASE

\$2,080

DESCRIPTION

The "Le Babe" series is inspired by female deities and folklore legends and each piece represents a woman. They are fragile but strong, and they all tell a story. The Primula vase is indissolubly linked to nature. It is a single-flower sculpture-vase made of two parts: the bust in hand-decorated white clay with a multi-color crystal finish; and the dress in red clay with "ramina" traditional decoration and a crystal finish. The flowers and leaves decorations are in paper clay with a flexible metal stem. A hole through the statue's hair can host a single flower and the interior is waterproof.
