LE DOME VASE BY ELENA CUTOLO

\$1,460

DESCRIPTION

A triumph of simple forms combined into visually alluring compositions, this vase will be a dramatic accent piece in a living room, dining room, or private study decor. From the Paris in the Twenties Collection, this vase is a stylized ode to Le Dome Café, a café-restaurant in Montparnasse, where Ernest Hemingway met painter Pascin. Drawing inspiration from the iconic lamp pendants hanging in the café, this piece uses aluminum to create dainty yellow cylindrical accents whimsically arranged around a tall red cylinder, for a bold and timeless visual impact.
