Cinetica

LEAF MODULAR WALL COVERING

\$115

DESCRIPTION

This exclusive, contemporary wall covering module is a creative way to divide or decorate a large interior. Part of the innovative Cinetica Collection designed by Studio Lido and created by Marinoni Peltro, this highly textured module will have a strong visual impact in a modern interior. Handmade of high-quality pewter (95% tin, 4.5% antimony and 0.5% copper) with a polished finish, it is in the shape of a leaf with delicate and soft lines that, once mounted, create a gleaming, draping effect.
