LEAF VENEZIA DINNER TABLE

\$26,575

DESCRIPTION

A stunning piece of functional decor, this table boasts a base in burnished brass-finished metal with an asymmetric shape from which stem several metal legs in the same finishing. The top was crafted in the elongated shape of a leaf made up of two identical layers thick 10 mm each, enclosing a unique decoration made of a central Canaletto walnut strip flanked by diagonal sections of briccola wood sourced from vintage piles used to mark the navigable channels through Venice lagoon. This accent, tempered by time and evocative of this magic city, will make a statement in a contemporary home.
