\$750

---

## DESCRIPTION

Unisex, trendy and practical backpack, whose color variants and modern design make it the perfect item for everyday use. Made of 1056 cotton threads tied one by one to make up the base of a unique and inimitable woven material, the cotton is waxed with potato flour starch, in line with the company's production processes that foster the use of natural, non-toxic materials. The highest expression of the best vegetable-tanned leather, skilfully processed by Tuscany tanneries, is used. The name of the bag "Scheggia" comes from Montagna Pizzo la Scheggia, a mountain of Gruppo dell'Onsernone in Alpi Lepontine. It is the highest peak of Val Vigezzo in Piedmont.
