LIGHT GREY AND BLACK

\$1,050

DESCRIPTION

A two-soul shopping bag with contrast colors dedicated to a contemporary women, dynamic during the day, and sophisticated at evening. 1056 cotton threads are tied one by one to make up the base of a unique and inimitable woven material. Cotton is waxed with potato flour starch, in line with the company's production processes that foster the use of natural, non-toxic materials. We use the highest expression of the best vegetable-tanned leather, skilfully processed by Tuscany tanneries. The name of the bag "Andolla" comes from a mountain of Alpi Pennine along the border between Italy and Switzerland. It is situated at the end of Antrona Valley and is the second-highest mountain of Val d'Ossola, after Monte Rosa.
