LEFKA N.7 VASE

\$2,190

DESCRIPTION

The distinct feature of pieces made with colombino technique is their uniqueness and high aesthetic value. The blush pink glossy glaze obtained during a two-step firing process adds texture to this intriguing vase that features a unique pattern of vertical strips that run slightly diagonally from the base to the top. Each piece is signed and numbered and the slight variations in size, shape, and finish are the marks of a unique handcrafted piece. \n
